

Project Design Phase-II
Data Flow Diagram & User Stories

Date	31 January 2025
Team ID	LTVIP2025TMID36086
Project Name	Enchanted Wings: Marvels of Butterfly Species
Maximum Marks	4 Marks

 *Enchanted Wings: Marvels of Butterfly Species*
covering both **Data Flow Diagram (DFD)** and **User Stories** in the required format.

 Data Flow Diagram (DFD) – Level 0 (Context Level)

User Stories Template

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Researcher / Student	Image Upload	USN-1	As a user, I can upload an image of a butterfly to the app	I can view the uploaded image preview	High	Sprint-1
Researcher / Student	Classification Output	USN-2	As a user, I can get the predicted butterfly species from the system	I see the predicted species name with a confidence score	High	Sprint-1

Researcher / Student	Visualization	USN-3	As a user, I can see a pie chart of class distribution	I view a pie chart showing species distribution in training data	Medium	Sprint-2
Researcher / Student	Educational Info	USN-4	As a user, I can learn about the predicted species	I see a short description of the butterfly species	Medium	Sprint-2
Public Contributor	Feedback Collection	USN-5	As a user, I can provide feedback on wrong predictions	I can submit comments for model improvement	Low	Sprint-3
Administrator	Dataset Management	USN-6	As an admin, I can upload new training images and relabel classes	I see updated image counts per class	High	Sprint-3
Administrator	Model Retraining Trigger	USN-7	As an admin, I can trigger a model retraining process	A retraining log is generated post-training	Medium	Sprint-4

Web User	Dashboard Access	USN-8	As a user, I can interact with the model through a web-based dashboard	Dashboard loads with upload and prediction functionality	High	Sprint-1
